

Introduction to Quensh

We concentrate on **your** HSEQ.
You concentrate on **your** business.

quenshspecialists.co.uk

Who we are

A local HSEQ consultancy with a robust track record spanning 14+ years

- With offices in **Aberdeen, Scotland** and **Perth, Western Australia**, our practical HSEQ specialists support organisations to manage and **mitigate risk** whilst **optimising business performance**.
- Established in **2006**, we currently provide HSEQ support to **over 50 customers** around the world.
- With an unrivalled depth of knowledge across HSEQ disciplines, we make it **simple** allowing our customers to concentrate on their business.
- We adopt a realistic, '**fit for purpose**' approach to meet customer specific HSEQ responsibilities, supporting them to achieve their objectives and **drive positive behaviours** and cultures.
- Providing integrated **HSEQ support services**, we help our customers deliver profitable numbers, **safely**.

What we do

Practical and Tailored HSEQ

HSEQ is not a tick box exercise for Quensh. We advise, guide and support our customers ensuring they remain compliant, but our core focus is to ensure they operate safely.

Through a variety of specialist services, we support a cross section of customers to improve business performance, behaviours and safety cultures.

Our resources

Variety and flexibility in resource management is fundamental to the Quensh approach:

- Our extensive pool of full-time HSEQ specialists support our customers' HSEQ needs
- We offer access to the equivalent of a fully staffed HSEQ department without the associated cost burden
- Varying range of expertise at Manager, Advisor and Co-Ordinator level ensure fit for purpose and cost-effective solutions
- Ad-hoc HSEQ support and fully outsourced services are available depending on the business or project requirements
- A large network and a dedicated internal recruitment department allows us to scale up our support in line with customers' operational demands
